RESPONSE TO RESTRICTION REQUIREMENT

The Examiner requires that applicant choose a claim group. Applicant elects Group V. The Examiner identifies claims 23-37 as falling within this Group V. Applicant thus adopts the Examiner's identification of at least claims 23-37 as falling within this Group V.

The election is with traverse in the event that the Examiner does not examine all of at least claims 23-37, given the Examiner's admission that at least these claims are all in the same group.

Respectfully submitted,
